

OSCAR HEYMAN
Since 1912

THE MOST EXTRAORDINARY
GEMS IN THE WORLD

Oscar Heyman transforms exceptional stones into luxurious treasures. With elevated techniques and time-honored practices, our in-house team of expert designers, lapidaries, setters, engravers, jewelers, and polishers creates the iconic jewels the company has been known for since 1912.

A REMARKABLE COLLECTION

Our superlative stones range from traditional to esoteric. Included is an impressive assortment of “phenomenal gems” which change in appearance when light interacts with their unique inclusions and crystal structures. Alexandrites, for example, shift color from bluish green to reddish purple. Finding a matching pair for earrings is exceedingly rare.

GLOBAL EXCELLENCE

Traveling the world seeking the finest stones demands tireless precision and an experienced eye. Our long-standing relationships with miners, cutters, and dealers allow us access to these splendors of the earth. Thousands of gems are reviewed but only a small handful pass our exacting standards.

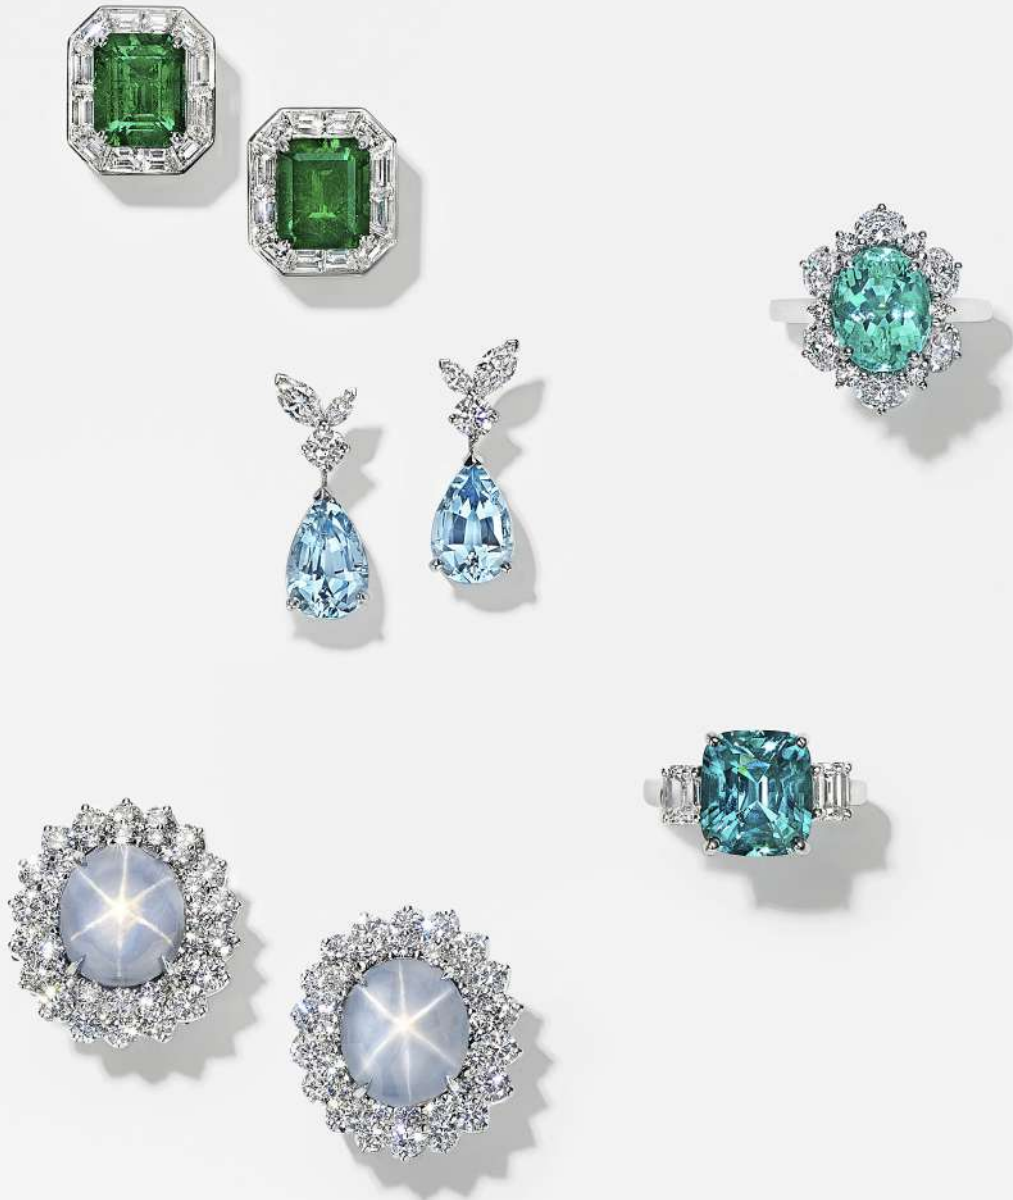

CONSIDERED DESIGN

Elegant and sophisticated designs enhance the natural beauty of the stones. With minimal settings in platinum and 18 karat yellow gold, vibrant color takes center stage. Our suite of paraiba tourmalines excites even the most seasoned collector with its striking blue hue.

HONORING OUR LEGACY

In our workshop on Madison Avenue, gems are transformed into jewelry under the stewardship of the second and third generations of the Heyman family. Old world craft, rigorous training, and modern technology align to deliver the highest quality.

REFINED PAIRINGS

Using creative finesse and original color combinations, our designers envision gemstones as wearable works of art. Final design sketches are hand painted in gouache, a long-standing tradition. Here, a bracelet of Mexican fire opals set alongside tsavorites and diamonds glows with a prismatic play of color.

DEDICATED TO PERFECTION

Pieces are signed with our trademark and stamped with a unique serial number, forever linking them in our archives with original records. Certificates of Authenticity are issued along with gem reports, when applicable, confirming our commitment to impeccable craftsmanship and superior stones.

TIMELESS HEIRLOOMS

Oscar Heyman jewelry is for collectors and connoisseurs. From 1912 to the present day, we have built a reputation as a leading jeweler, creating pieces that are as relevant today as they will be for generations to come.
